

A Precision 1 1/4" Nom. Swage Press for the production of hose assemblies of all types. Designed specifically for operators on the move, it has a versatile, lightweight/compact design. Incorporating a special "Fast Approach" feature means less time is required to swage a hose assembly. To be used with your own power supply, it is a cost effective solution. Control of your settings is via a visual Dial Vernier with micro-millimeter accuracy. Manufactured from steels with high alloying components subjected to new surface treatments will provide the owner many years of trouble free operation.
